TO WHOM IT MAY CONCERN

Dear Sir/ Madam

Re: Zara Andhyarujina – internship

Zara Andhyarujina interviewed and successfully obtained an internship with our company, [Grasper Global Private Limited] on 9 March 2021.

Given our offering of learning resources, educational games and STEM toys it was a good match with Zara's unique and avid interest in chemistry and nuclear physics. She has been our youngest intern and we gave her an opportunity to work from March to June 2021 to brainstorm and design a prototype of a game based on Charles Darwin's concept of "Survival of the Fittest" for our company, with the aim of helping children learn through this game. She designed this and worked well with us over her internship.

Warm Regards,
